Act No. 117 of 1972 provides for the establishment of an inventory of all land and buildings owned or leased by the Commonwealth, and mandates the cooperation of all State agencies in keeping the inventory current. To comply with these requirements, at the end of each month please check the appropriate boxes for any activity with regard to property under your jurisdiction, note the number of transactions for the month in that category, and complete the appropriate attachment as indicated. This report must be submitted each month even if there was no activity. For any questions or assistance in completing this report, contact the Bureau of Space and Facilities Management.

TO: All Commonwealth Administrative Departments, Independent Boards and Commissions, and other State Agencies under the Governor’s Jurisdiction.

FROM: Bureau of Space and Facilities Management
Department of General Services

SUBJECT: Land and Building Activity Reporting Procedures

The Bureau of Space and Facilities Management has been assigned the responsibility of maintaining a comprehensive Inventory of all land and buildings owned and leased by the Commonwealth. As part of the mechanism for identifying all changes in Inventory data, the following reporting procedure has been established:

A. At the end of each month, all agencies are to complete the Land and Buildings Monthly Report. All that is necessary is to place a check in the appropriate box which identifies any activity that may affect the Inventory and note the number of transactions that have taken place during the month in that particular activity. The completed form should be sent to the Bureau of Space and Facilities Management not later than the fifth day after the end of the month. A copy of the completed form should be retained.

B. As soon as possible thereafter, the appropriate form, or forms, as indicated on the Land and Buildings Monthly Report, should be completed and sent to the Bureau of Space and Facilities Management. These forms provide to the Inventory the necessary details concerning the activities reported on the Land and Buildings Monthly Report. A separate form will be needed for each transaction reported.

C. If there was no activity for the month, the Land and Buildings Monthly Report must still be submitted to the Coordinator. All that is necessary is to check the appropriate box, Item 6.

D. An explanation of each activity category and what is to be reported on the forms follows:

1. ACQUISITION OR DISPOSITION (report details on Forms GSSFM-11 and GSSFM-12)
   This category relates to activity by an agency with respect to the acquisition or disposition of real estate. If during the current reporting period your agency has acquired or sold one or more parcels of land, or leased land or terminated a lease of land (other than through the Bureau of Real Estate, Department of General Services), this activity must be reported by checking the appropriate boxes. Agencies which purchase land for future development and reconveyance to another agency should report these transactions as acquisitions by their agency.

   Transfer of property from one State to another is authorized through legislation; upon enactment, the transfer should be reported by both the transferring and the receiving agencies.

2. CONSTRUCTION ACTIVITY (report details on Form GSSFM-13)
   All construction activity is to be reported in this category. The significant event to be reported is the completion of any type of fixed construction on property under your agency’s jurisdiction, including, for example, a latrine, shower house, dressing room, tool storage shed, radio tower, and so forth. Report only upon completion, not while construction is in progress. In the case of buildings which will be occupied by personnel, report only when actual occupancy takes place (complete or partial).

   Report the completion of any alterations or additions to a building. Do not report normal maintenance or repair work.

   The demolition of any type of building or structure must also be reported whether it is carried out by your agency or another.

3. INSTALLATION CHANGES (report details on Form GSSFM-13)
   Any changes to an installation (defined on the report) such as the name, address or use of an installation as well as the number of parking spaces are to be reported under this category.

4. BUILDING CHANGES (report details on Form GSSFM-13)
   Under this category any changes in the name, use, and physical condition of any building or structure under the jurisdiction of your agency are to be reported. By change in condition is meant a physical change under a general rating of excellent, very good, good, fair, poor, and very poor.

5. PROPERTY LEASED OUT (report details on Form GSSFM-13)
   If all or part of any property or building under the jurisdiction of your agency is leased out by your agency to a private organization or individual, or if such a lease is terminated, activity of this nature is to be reported under this category.

6. NO ACTIVITY
   If there was an activity by your agency during the current reporting period in any of the above categories, check the appropriate box.

THIS ATTACHMENT RELATES TO THE LAND AND BUILDINGS MONTHLY REPORT DATED: ____________, ___________.

The disposition of property involved: ☐ a sale or other conveyance of title ☐ termination of a lease

Was the property in question a part of one or more existing installations (as opposed to an entire separate installation)? That is, was it connected functionally with other property administered by your agency?

Yes ☐ complete Section I

No ☐ complete Section II

I. DELETION OF PART OF AN EXISTING INSTALLATION

1. Name of installation involved (may be more than one):

2. City, Township or Borough and County in which present installation is located (may be more than one):

3. City, Township or Borough and County in which disposed property is located (may be more than one):

4. With the report installations by Administering Agency as reference, determine the installation ID No.(s) involved. There will be one number for each installation connected with the disposition.

5. The disposition of property which is part of an existing installation may affect the following data elements presently recorded for the installation within the Inventory. In each case, note only the data as it relates to the property disposed of:
   a. Number of parking spaces: ___________________________
   b. Acres (list separately for each municipality listed in No. 3): ___________________________

6. If there were any buildings on that portion of the property disposed of, record the building ID numbers and name by referencing the report Buildings by Administering Agency. Attach additional pages if more space is required.
