Remarks of the Chair

Chairman Pichini welcomed everyone to the special meeting of the Board of Governors.

Chairman Pichini said the Board of Governors will consider one action item regarding the allocation of appropriations to the universities for this fiscal year (2013/14).

Chairman Pichini mentioned that on September 5 the Finance, Administration, and Facilities Committee of the Board of Governors met to consider establishing limits to the annual fluctuation in the share of state appropriations allocated to each university. This committee meeting resulted in the recommendation that is under consideration by the Board.

Chairman Pichini asked Acting Chancellor Peter Garland, on behalf of Mr. Henry, Chair of the Finance Committee, who could not participate in today’s meeting, to provide an overview of the process and rationale that led to this recommendation.

Acting Chancellor Peter Garland’s Overview

- Every July, the Board takes action on items that facilitate the distribution of PASSHE’s appropriation to the universities. As required by law and Board policy, appropriations are distributed to the universities through an allocation formula and performance funding.

- The fiscal year 2013/14 allocation formula results generated the greatest change among institutions (ranging from a 5.4 percent decrease to 4.4 percent increase) that has been seen since the formula was last modified in 2007. Coupled with changes in Pennsylvania demographics that are creating enrollment challenges at most PASSHE universities, these formula results exacerbated the unusual financial circumstances some of our universities are facing today.
• The Committee considered various solutions during the summer, but waited to make any recommendations until September 5—after the results of performance funding were known—to make decisions with full knowledge on the potential combined fiscal impact of allocation formula and performance funding results.

• The resulting recommendation continues to reward performance—both in recognition of enrollment and performance on certain key indicators—yet limits the amount any institution can gain in one year to two percent. This creates a mechanism to limit the most significant decreases to what would otherwise occur at some institutions. In total, the recommended adjustment affects five universities.

Chairman Pichini moved THAT THE BOARD OF GOVERNORS APPROVE AN ADJUSTMENT TO UNIVERSITY APPROPRIATIONS AS REFERENCED IN THE ATTACHED TABLE. (Attachment #1)

The motion passed unanimously.

Chairman Pichini moved to go into a brief executive session to discuss personnel and legal issues.

Executive Session convened at 9:15 a.m.

Executive Session adjourned at 9:55 a.m.

The Board meeting reconvened at 9:56 a.m.

There being no further items of business to come before the Board, Chairman Pichini adjourned the meeting at 9:57 a.m.
