

State System of Higher Education 2017 Preventive Schedule

PLAN YOUR CARE: KNOW WHAT YOU NEED AND WHEN TO GET IT

Preventive or routine care helps us stay well or finds problems early, when they are easier to treat. The preventive guidelines on this schedule depend on your age, gender, health and family history. As a part of your health plan, you may be eligible to receive some of these preventive benefits with little to no cost sharing when using in-network providers. Make sure you know what is covered by your health plan and any requirements before you receive any of these services.

Some services and their frequency may depend on your doctor's advice. That's why it's important to talk with your doctor about the services that are right for you.

Adults: Ages 19+

Male

Female

General Health Care

Routine Checkup* (This exam is not the work- or school-related physical)

- Ages 19 to 49: Every 1 to 2 years
- Ages 50 and older: Once a year

Pelvic, Breast Exam

Once a year

Screenings/Procedures

Abdominal Aortic Aneurysm Screening

Ages 65 to 75 who have ever smoked: One-time screening

Ambulatory Blood Pressure Monitoring

To confirm new diagnosis of high blood pressure before starting treatment

Breast Cancer Genetic (BRCA) Screening
(Requires prior authorization)

Those meeting specific high-risk criteria: One-time genetic assessment for breast and ovarian cancer risk

Cholesterol (Lipid) Screening

- Ages 20 and older: Once every 5 years
- High-risk: More often

Colon Cancer Screening
(including Colonoscopy)

- Ages 50 and older: Every 1 to 10 years, depending on screening test
- High-risk: Earlier or more frequently

Certain Colonoscopy Preps With Prescription

- Ages 50 and older: Once every 10 years
- High-risk: Earlier or more frequently

Diabetes Screening

High-risk: Ages 40 and older, once every 3 years

Fasting Blood Glucose

For high-risk patients screenings should start at age 45 at three-year intervals. Earlier screening may be indicated based on individual risk factors.

Hepatitis B Screening

High-risk

Hepatitis C Screening

High-risk

Lung Cancer Screening
(Requires use of authorized facility)

Ages 55 to 80 with 30-pack per year history: Once a year for current smokers, or once a year if currently smoking or quit within past 15 years

Mammogram

Ages 40 and older: Once a year including 3-D

Osteoporosis (Bone Mineral Density) Screening

Ages 60 and older: Once every 2 years

Pap Test

- Ages 21 to 65: Every 3 years, or annually, per doctor's advice
- Ages 30 to 65: Every 5 years if combined Pap and HPV are negative
- Ages 65 and older: Per doctor's advice

Prostate Cancer Screening

Discussion of risks/benefits of prostate cancer screening. Testing may include annual Prostate Specific Antigen (PSA) and/or digital rectal exam

Sexually Transmitted Disease (STD) Screenings (Chlamydia, Gonorrhea, HIV and Syphilis)

Sexually active males and females

Adults: Ages 19+

Immunizations

 Chicken Pox (Varicella)	Adults with no history of chicken pox: One 2-dose series
 Diphtheria, Tetanus (Td/Tdap)	<ul style="list-style-type: none"> • One-time Tdap • Td booster every 10 years
 Flu (Influenza)	Every year (Must get at your PCP's office or designated pharmacy vaccination provider; call Member Service to verify that your vaccination provider is in the Highmark network)
 Hepatitis A	At-risk or per doctor's advice: One 2-dose series
 Hepatitis B	At-risk or per doctor's advice: One 3-dose series
 Haemophilus Influenzae Type B (Hib)	For adults with certain medical conditions to prevent meningitis, pneumonia and other serious infections; this vaccine does not provide protection against the flu and does not replace the annual flu vaccine
 Human Papillomavirus (HPV)	Ages 9 to 26: One 3-dose series
 Measles, Mumps, Rubella (MMR)	One or two doses
 Meningitis*	At-risk or per doctor's advice
 Pneumonia	High-risk or age 65 and older: One or two doses, per lifetime
 Shingles (Zoster)	Ages 60 and older: One dose

Preventive Drug Measures That Require a Doctor's Prescription

 Aspirin	Ages 50 to 59 to reduce the risk of stroke and heart attack
 Folic Acid	Women planning or capable of pregnancy: Daily supplement containing .4 to .8 mg of folic acid
 Raloxifene Tamoxifen	At-risk for breast cancer, without a cancer diagnosis, ages 35 and older
 Tobacco Cessation (Counseling and medication)	Adults who use tobacco products
 Vitamin D Supplements	Ages 65 and older who are at risk for falls

Preventive Care for Pregnant Women

 Screenings and Procedures	<ul style="list-style-type: none"> • Gestational diabetes screening • Hepatitis B screening and immunization, if needed • HIV screening • Syphilis screening • Smoking cessation counseling • One depression screening for pregnant women and one for postpartum women 	<ul style="list-style-type: none"> • Rh typing at first visit • Rh antibody testing for Rh-negative women • Tdap with every pregnancy • Urine culture and sensitivity at first visit
---	--	--

Prevention of Obesity, Heart Disease and Diabetes

 Adults With BMI 25 to 29.9 (Overweight) and 30 to 39.9 (Obese) Are Eligible For:	<ul style="list-style-type: none"> • Additional annual preventive office visits specifically for obesity and blood pressure measurement • Additional nutritional counseling visits specifically for obesity 	<ul style="list-style-type: none"> • Recommended lab tests: <ul style="list-style-type: none"> – ALT – AST – Hemoglobin A1c or fasting glucose – Cholesterol screening
--	---	--

* Meningococcal B vaccine per doctor's advice.

2017 Preventive Schedule

PLAN YOUR CHILD'S CARE: KNOW WHAT YOUR CHILD NEEDS AND WHEN TO GET IT

Preventive or routine care helps your child stay well or finds problems early, when they are easier to treat. Most of these services may not have cost sharing if you use the plan's in-network providers. Make sure you know what is covered by your health plan and any requirements before you schedule any services for your child.

It's important to talk with your child's doctor. The frequency of services, and schedule of screenings and immunizations depends on what the doctor thinks is right for your child.

Hepatitis A							Dose 1		Dose 2		
Hepatitis B	Dose 1		Dose 2			Dose 3					
Haemophilus Influenzae Type B (Hib)			Dose 1	Dose 2	Dose 3		Dose 4				
Measles, Mumps, Rubella (MMR)							Dose 1				
Pneumonia			Dose 1	Dose 2	Dose 3		Dose 4				
Polio (IPV)			Dose 1	Dose 2	Ages 6 months to 18 months: Dose 3						
Rotavirus			Dose 1	Dose 2	Dose 3						

* Routine checkup could include height and weight measures, behavioral and developmental assessment, and age-appropriate guidance. Additional: Instrument vision screening to assess risk for ages 1 and 2 years. ** Must get at your PCP's office or designated pharmacy vaccination provider. Call Member Service to verify that your vaccination provider is in the Highmark network.

Children: 3 Years to 18 Years¹

General Health Care	3Y	4Y	5Y	6Y	7Y	8Y	9Y	10Y	11Y	12Y	15Y	18Y	
Routine Checkup* (This exam is not the preschool- or day care-related physical)	●	●	●	●	●	●	●	●	Once a year from ages 11 to 18				
Ambulatory Blood Pressure Monitoring**												●	
Depression Screening									Once a year from ages 11 to 18				
Hearing Screening		●	●	●		●		●		●	●		
Visual Screening***	●	●	●	●		●		●		●	●	●	
Screenings													
Hematocrit or Hemoglobin Screening			Annually for females during adolescence and when indicated										
Lead Screening	When indicated (Please also refer to your state-specific recommendations)												
Immunizations													
Chicken Pox		Dose 2								If not previously vaccinated: Dose 1 and 2 (4 weeks apart)			
Diphtheria, Tetanus, Pertussis (DTaP)		Dose 5				1 dose of Tdap if 5 doses were not received previously						1 dose every 10 yrs.	
Flu (Influenza)****	Ages 3 to 18: 1 or 2 doses annually												
Human Papillomavirus (HPV)								Provides long-term protection against cervical and other cancers. Ages 9 to 26: 3 doses. From dose 1, dose 2 at 2 months, dose 3 at 6 months.					
Measles, Mumps, Rubella (MMR)		Dose 2 (at least 1 month apart from dose 1)											
Meningitis*****									Dose 1		Age 16: One-time booster		
Pneumonia	Per doctor's advice												
Polio (IPV)		Dose 4											
Care for Patients With Risk Factors													
BRCA Mutation Screening (Requires prior authorization)					Per doctor's advice								
Cholesterol Screening	Screening will be done based on the child's family history and risk factors												
Fluoride Varnish (Must use primary care doctor)	Ages 5 and younger												
Hepatitis B Screening									Per doctor's advice				
Hepatitis C Screening										High-risk			
Sexually Transmitted Disease (STD) Screenings (Chlamydia, Gonorrhea, HIV and Syphilis)									For all sexually active individuals				
Tuberculin Test									Per doctor's advice				

* Routine checkup could include height and weight measures, behavioral and developmental assessment, and age-appropriate guidance. ** To confirm new diagnosis of high blood pressure before starting treatment. *** Covered when performed in doctor's office by having the child read letters of various sizes on a Snellen chart. Includes instrument vision screening for ages 3, 4 and 5 years. A comprehensive vision exam is performed by an ophthalmologist or optometrist and requires a vision benefit. **** Must get at your PCP's office or designated pharmacy vaccination provider. Call Member Service to verify that your vaccination provider is in the Highmark network. ***** Meningococcal B vaccine per doctor's advice.

Children: 6 Months to 18 Years¹

Preventive Drug Measures That Require a Doctor's Prescription

Oral Fluoride

For preschool children older than 6 months whose primary water source is deficient in fluoride

Prevention of Obesity and Heart Disease

Children With a BMI in the 85th to 94th Percentile (Overweight) and the 95th to 98th Percentile (Obese) Are Eligible For:

- Additional annual preventive office visits specifically for obesity
- Additional nutritional counseling visits specifically for obesity
- Recommended lab tests:
 - Alanine aminotransferase (ALT)
 - Aspartate aminotransferase (AST)
 - Hemoglobin A1c or fasting glucose (FBS)
 - Cholesterol screening

Information About the Affordable Care Act (ACA)

This schedule is a reference tool for planning your family's preventive care, and lists items and services required under the Affordable Care Act (ACA), as amended. It is reviewed and updated periodically based on the advice of the U.S. Preventive Services Task Force, laws and regulations, and updates to clinical guidelines established by national medical organizations. Accordingly, the content of this schedule is subject to change. Your specific needs for preventive services may vary according to your personal risk factors. Your doctor is always your best resource for determining if you're at increased risk for a condition. Some services may require prior authorization. If you have questions about this schedule, prior authorizations or your benefit coverage, please call the Member Service number on the back of your member ID card.

¹Information About Children's Health Insurance Program (CHIP)

Because the Children's Health Insurance Program (CHIP) is a government-sponsored program and not subject to ACA, certain preventive benefits may not apply to CHIP members and/or may be subject to copayments.

The ACA authorizes coverage for certain additional preventive care services. These services do not apply to "grand-fathered" plans. These plans were established before March 23, 2010, and have not changed their benefit structure. If your health coverage is a grandfathered plan, you would have received notice of this in your benefit materials.

Discrimination is Against the Law

The Plan complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex, including sex stereotypes and gender identity. The Plan does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex assigned at birth, gender identity or recorded gender. Furthermore, the Plan will not deny or limit coverage to any health service based on the fact that an individual's sex assigned at birth, gender identity, or recorded gender is different from the one to which such health service is ordinarily available. The Plan will not deny or limit coverage for a specific health service related to gender transition if such denial or limitation results in discriminating against a transgender individual. The Plan:

- Provides free aids and services to people with disabilities to communicate effectively with us, such as:
 - Qualified sign language interpreters
 - Written information in other formats (large print, audio, accessible electronic formats, other formats)
- Provides free language services to people whose primary language is not English, such as:
 - Qualified interpreters
 - Information written in other languages

If you need these services, contact the Civil Rights Coordinator. If you believe that the Plan has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, including sex stereotypes and gender identity, you can file a grievance with: Civil Rights Coordinator, P.O. Box 22492, Pittsburgh, PA 15222, Phone: 1-866-286-8295, TTY: 711, Fax: 412-544-2475, email: CivilRightsCoordinator@highmarkhealth.org. You can file a grievance in person or by mail, fax, or email. If you need help filing a grievance, the Civil Rights Coordinator is available to help you. You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at:

U.S. Department of Health and Human Services
200 Independence Avenue, SW
Room 509F, HHH Building
Washington, D.C. 20201
