YOUR 2015 URGENT CARE CENTER NETWORK

If you get sick or hurt when your doctor’s office is closed and you’re not faced with an emergency, an urgent care center may be a good option.

USE A NETWORK URGENT CARE CENTER

Keep in mind that urgent care visits are not considered emergency visits. Urgent care centers provide care for non-life-threatening issues. To avoid higher out-of-pocket costs, it’s important to use in-network urgent care centers.

NEARLY 60 LOCATIONS

In 2015, you will have nearly 60 network urgent care centers available to you in the western Pennsylvania area. These include MedExpress®. A Highmark network urgent care center is near one of the following UPMC urgent care centers that will be out-of-network in 2015.

These urgent care centers are out-of-network in 2015:

• UPMC Urgent Care at Monroeville
• UPMC Urgent Care at Natrona Heights
• UPMC Urgent Care at North Huntingdon
• UPMC Urgent Care at Robinson
• UPMC Urgent Care at Shadyside
• UPMC Urgent Care in Wexford

Note: The UPMC Urgent Care in Hermitage, PA, will continue to be part of the network in 2015. UPMC Urgent Care Erie South and UPMC Urgent Care Erie West are physician offices and are in-network.

IT’S EASY TO FIND A NETWORK URGENT CARE CENTER NEAR YOU:

• Go to highmarkblueshield.com.
• Select the Find a Doctor or Rx tab.
• Click on the Find a Doctor, Hospital or other Medical Provider link. Under the “I Want to Find a…” header, use the dropdown box to choose Urgent Care Center.
• Enter the ZIP code and your plan name.

Or, just call Member Service at the number on your Highmark ID card.

Urgent care centers generally provide the same services as your family doctor. This includes physicals, immunizations, X-rays, blood tests, and treatment of minor illnesses, sprains and other injuries. They’re usually open 12 hours a day during the week and eight hours a day on weekends. You don’t need an appointment.
