Pennsylvania’s State System for Higher Education
Charge for Student Success and Retention Working Group (Western only)
November 12, 2020

**Overview**
The framework for the Working Groups (WG) includes:

- **Integrations Overall Charter** – Provides the purpose and organizational structure for the overall Integrations initiative, including Integration Guidelines with Guiding Principles.
- **Working Group Charter** – Defines the roles and responsibilities of the Working Groups and articulates the purpose, goals, principles, scope, roles, and deliverables with which the WGs are charged.
- **Working Group Charge** (this document) – Includes specific milestones, questions, and goals to be addressed by each WG specifically.

**WG Deliverables and Timing**

Integration Overarching Considerations

- What is the current resource inventory for the area (people, facilities, technology, policies)?
- What elements can be integrated into a singular structure for performing the necessary functions (and, as an exception, which require joint and concurrent delivery models)?
- What data do we have regarding existing functions in this area? What data will inform decisions?
- What are the qualitative considerations related to integrating this function?
- Have we kept the guiding principles, goals, and objectives in mind in our efforts?
- What input from other working groups is critical to forming alternatives and recommendations?

For Each Recommendation, Assess the Impacts

- People – Student, faculty, staff, governance (e.g., trustees, organizations) – individuals impacted by the change and any know required activities to support the change (classification, side letter changes, training etc.)
- Process – Policy, procedures, contracts, partnerships, etc., that support the current state which would have to be changed to support the recommendation
- Technology – Systems, support, applications that support the recommended changes and if any updates would be required
- Finance – Required funding to implement or lead to a cost savings
- Physical Assets – Physical assets (buildings) that would be impacted by recommendations
- Compliance and Legal – Federal, state, and local laws, regulations, and other requirements that would need to be changed to implement the recommendation
- Community – Known community stakeholders impacted by the recommendation
- Benefits – Anticipated benefits associated with the recommendation – linked to goals and objectives, if possible
- Risk – Known risks associated with implementation of the recommendation

Use the considerations and questions below to discuss, prioritize, and develop draft recommendations for Priority 1 questions to define the future state and impact analysis.
