Align Working Groups to Operating Expectations

Integration Guidelines

- Bring forth multiple views/alternatives and pros/cons; consider all ideas.
- Represent your subject matter expertise, not your current university.
- Listen with respect to everyone's opinion and keep a sense of humor.
- Meet deliverables by established deadlines.
- Engage and consult with key stakeholders and promote transparency.
- Maintain confidentiality of Working Group discussions and understand decisions/recommendations aren't final until process is followed.
- Focus on data-informed decision making.
- Don't recreate the wheel.
- Consider impact of recommendations on non-integrating universities.

Optimize for Guiding Principles that Reflect Our Goals

In developing recommendations, use these Guiding Principles to decide between competing options
